

This CD package represents my attempt at a follow-up to the compilation CD that I made 2 years ago entitled "Itchin' For An Incident". With that set of discs, I tried to compile the best and most representative of String Cheese Incident's live material from a variety of DAT tapes from the 1997 and 1998 tours. In the two years since then, the band has introduced an incredible amount of new material, and their sound has evolved considerably. In choosing the selections that would be part of this follow-up, I tried to use songs that were not covered on the "Itchin'" compilation (with the exception of "I Know You Rider"). The band has been extremely generous in allowing soundboard patches of virtually all of their shows for the past year, and the task of choosing which version of a particular song to include was not an easy undertaking. For the most part, I tried to find the best and most memorable version of these songs that I could find, limiting my search to the October 99 through June 2000 time frame. Since the band's sound is constantly evolving, you'll find that most of the selections are from the February-May 2000 time frame. Many of the selections feature guest artists such as Karl Denson, Carlos Washington (Tiny Universe Horns), Darol Anger (David Grisman Quintet, Montreaux, Turtle Island String Quartet, Anger/Marshall Band, Psychograss), Bela Fleck & The Flecktones (New Grass Revival, Strength In Numbers, Flecktones). I am sure that there are "better" versions of some of these songs, but I'm pretty certain that this compilation has captured the definitive versions of "Birdland", "Lonesome Fiddle Blues" and "Rivertrance", at least the ones that have been performed thus far. I had to edit out the "Lester Poem" from Rivertrance in order to squeeze all that music on to the CD. Sorry about the rough editing on that edit, and between tracks, unfortunately, my digital CD recorders don't offer a fade in/fade out option, so I did the best that I could.
